Thinking Out Loud

By H. M. L.

Inflation is no bogey man. It is a real fire eating dragon that consumes college educations for children, reduces living standards, pays honest debts in worthless dollars, eats up the savings deposits of prudent, thrifty people, makes pawn broking prosperous, forces little children on the streets to beg, steals the hard won homes of the industrious and spreads general ruin throughout the land. The Germans could tell us a lot about inflation. They know that its devastation is about on a par with war.

The Tax Foundation has issued a booklet, showing that in order to avoid inflation we must up taxes about 4-billion above the figure recommended by the House revenue proposals now being considered by the Senate. Both England and Canada are meeting over 50 per cent of the expenditures with current tax revenue. The United States, under present proposals will raise less than 30 per cent in fiscal 1943.

These and other significant conclusions are brought out by the data presented in Facts and Figures on War Finance, a study in booklet form compiled by the Tax Foundation. Designed to contribute to needed debate and consideration of war finance and to clarify the problem and the facts which relate to it, this booklet of charts and tables presents a graphic picture of national income and expenditures, federal taxes, expenditures and debt, corporation income, war bond sales and cost of living index.

According to Facts and Figures on War Finance, the United States should collect in 1943 taxes at least 40% of total expenditures, or $29-billion. Business as usual sources of revenue are already yielding just about their limit, and the only remaining source is a broadened tax base which would tap the bulk income of the country, the lower brackets into which 80% of the nation's income flows. The income in these brackets, the study points out, represents the great inflationary surplus — the surplus, mass buying power which can bid up the prices of increasingly scarce consumer goods and start the course of an inflationary spiral which may not be possible to control. One striking fact revealed by the Tax Foundation's study is that if all net incomes over $5000 were confiscated in 1941 it would pay for only 48 days of the war.

The answer to one of the questions in the booklet urges Americans in all brackets of income—immediately to consider the choice between demanding that their hard-earned money be taxed sufficiently to avoid inflation now or in not demanding it, to find the money they have not paid in taxes, along with a great part of the rest of their income, consumed by inflation, the first symptom of which is the rising cost of living.

On the assumption that the full amount of the $222-billion of war expenditures now authorized will be expended, the study shows that even if 40% is collected in taxes the federal debt on June 30, 1945, will amount to over $225-billion. This is the equivalent of a debt of 7,000 for every family of four in the United States.

In the fiscal year 1942 the national income reached a net figure of approximately $104 billion, an increase of 10% over the calendar year 1941 and nearly one-fourth more than the previous record year of 1929. Despite an increased national income, war expenditures are requiring more and more of our productive facilities. It is estimated that by the time the peak of our production is reached in 1944 the national income figure will rise to $120-billion and that about 60% of our total production will be devoted to winning the war. Only about 40% of our production will be devoted to civilian needs.

Pointing out that the cost of this tremendous war effort can be

(Continued on Page Two)

WILL ATTEND SCHOOL IN VERMONT

Miss Barbara Neal, popular Nevada City High School student and past worthy matron of the Nevada City Rainbow Girls, will attend high school this year in Mt. Claire, Vermont. Miss Neal is a daughter of the Homer Neals. The Neals will live in Washington, D. C., where Neal, former engineer at the Zeibright Mine, is employed in war work.

Miss Neal will especially be missed here by Miss Betty Jacobs, her inseparable pal during the summer months.

FORMER LOCAL PRINCIPAL IN AIR FORCE

Gilbert J. Davis, principal of the Bret Harte Union High School in San Andreas, who for eight years was principal of the Nevada City Elementary School, has received an appointment to the position of instructor in the Advanced Flying School at the Stockton Air Field.

Davis was scheduled to report for his new duties today.

The former local school principal is well known here. In releasing Davis from his contract as principal of Bret Harte High School the board of trustees expressed regret. They have found him efficient and capable in the administration of the school.

It was while he was principal of the local elementary school that Davis received the appointment to the Bret Harte post.

DEER HUNTING WILL BE GOOD

Fire Chief Mac Edmonds of the Tahoe National Forest predicts ideal weather for the opening of deer season. Recent showers have done much to start a movement of the deer, which will result in better over-all hunting condtions. According to Edmonds, the only drawback to an otherwise perfect deer season is the possibility that recent rains will result in a relazation in fire precaution. Edmonds points out that until the general storms set in a definite fire hazard exists, and it is urged that all sportsmen take an active part in the prevention of fire. Edmonds further stated that all forest camp grounds have been put into condition for the use of hunters. Information as to the location of these free camps may be obtained at any forest service station.

DEATH CLAIMS ANN WITTER

Mrs. Ann Witter, well known resident of Grass Valley, died at the family home in that community at midnight. Mrs. Witter, who was the widow of the late Henry Witter, at one time deputy sheriff of this county, had been ill for many weeks.

She leaves two sisters, Mrs. Louise Steel and Mrs. Olive Hansen and a brother, James Oliver, all of Grass Valley. Funeral rites will be under the direction of the Hooper-Weaver Mortuary in Grass Valley.

Schools Resume Classes

Nevada City school children today trekked back to their classes after enjoying the longest vacation in recent school history.

Schools here ordinarily resume early in September or the latter part of August but because of the need of children in harvesting crops and fruit picking, a two weeks delay in the opening of classes was decided upon.

Enrolment at both the elementary and high schools did not reach last year's enrolment figures but the high school is expected to have additional students before the end of October when many plan to end their employment and resume their education.

At the local elementary school the students were greeted today by the same teachers as last year but many new teachers were noted at the high school. The only change in the elementary school staff was the absence of Donald Tuxford, who is now in the armed forces. Tuxford's duties were absorbed by the rest of the school teaching staff.

Specific recommendations from the Washington office of Civilian Defense makes it imperative that the governing board of school districts and school district employees take immediate steps necessary to conserve the use of school buses now owned by school district and contractors. These recommendations are as follows:

1. Transportaton should not be provided for pupils who have less than two miles to walk. Exceptions may be made for physically handicapped children, those who would be subjected to extreme danger or physical hardships because of unusual local conditions, and pupils who would be required to leave home at an unduly early hour and return after dark.

2. Transportation should not be provided for pupils who live in areas served by public carrier routes.

3. Use of school buses should be limited to carrying pupils to and from school or projects which are a necessary part of the school program. This would eliminate the use of buses for trips to such events as athletics and music contests.

4. Staggering of hours for opening and closing of schools in a given area so that buses could serve two or more schools on one trip. Thus a bus might carry pupils for an elementary school and also for a high school which would not be reached until later.

5. Permission for pupils to stand in buses where safety is not endangered.

6. Reduction of the number of trips to a minimum.

The Nevada City Board of Education is making every effort to comply with the above recommendations in order to promote the best interest of the war effort, and also to not jeopardize the possibility of securing new tires for its buses. It will, however, maintain routes and schedules consistent with public welfare and safety of pupils. It may be that it will become necessary to restrict the operation of existing school buses for student transportation, in order to make them available for the needs more connected with the war effort. While, no doubt, it will be necessary to restrict the use of buses by pupils living within or very near to the city limits, school buses will continue to serve the following areas as long as there are sufficient pupils to warrant their use in the various localities: San Juan, Indian Flat, Willow Valley, Lake Vera and Murchie Road.

The preliminary bus schedule of arrival at various bus stops is as follows: Lawrence's 7:37; Willow Valley 7:45; Four Corners 8:00; Town Talk 8:05; Murchie Mine at 8:18; Indian Flat 8:00; Lake Vera 8:20.

FLOWERS THAT BLOOM IN NEVADA CITY

Nevada City is known throughout the state for its wonderful flowers. An example of what can be produced in the dahlia line is shown above. The flowers were grown in the U. S. N. Johnson yard and Johnson is shown above with a few choice blooms similar to the ones displayed at the Victory Harvest and Flower Show given last Wednesday night by the Nevada City Garden Club. Photo Courtesy Sacramento Bee

County Central Committees Organize At Meetings Here

REPUBLICANS

Paul Ullrich of Chicago Park was reelected chairman of the Nevada County Republican Central Committee at the organization meeting of that group here last week.

Stuart Chalmers of Grass Valley was elected vice chairman and Mrs. Danae Hubbard of Grass Valley secretary.

The committee will meet here again within the next two weeks and at that time the appointment to fill eight vacancies will probably be made. No one from Nevada City qualified for election at the primary so six local men have to be selected for the committee.

The Republicans endorsed Earl Warren for governor and endorsed all other Republican party nominees.

GROUP LEAVES FOR ARMY TODAY

Friends and relatives today bid farewell to 14 Nevada County men who left this morning for the army. William James and Robert Schiffner, both of this city, were the acting corporals in charge of the group.

In addition to James and Schiffner, those leaving were William J. Gilbert, Wayne Brown, V. V. Hawkins, Albert D. Bonivert, Ray L. Morrow, Dorse L. Childress, John W. Harris, Richard R. Cartledge, Donald M. Mayhew, Jack D. Rowe, Vernon F. Lyons and George D. Webber.

Walter S. Johnson and Richard M. Dixon will head a group which will depart for the army tomorrow. Hydraulic Parlor, Native Sons of the Golden West of this city will entertain the departing men.

Those leaving beside Johnson and Dixon are Roy F. Waters, Alvin H. Dilts, Robert Seadlund, John F. Willey, John D. Colligan, Fred Zanocco and Charles Newland.

SWIMMING POOL CLOSES

Lifeguard Rolland Garwood Saturday night closed the Nevada City Municipal Swimming Pool for the season.

The closing of the swimming pool marked the end of one of the most successful seasons at the local municipal pool. The pool provided enjoyment to hundreds of children and in addition many learned to swim under the direction of Lifeguard Garwood and Red Cross instructors.

DEMOCRATS

The Nevada County Democratic Central Committee met in the courthouse here last week and reelected Frank Finnegan as chairman.

The central committeeman elected John Hodges as vice chairman and Bill Cassettari secretary.

The committee is to appoint nine members to fill vacancies. Seven are to be appointed from the Second Supervisorial District, comprising the Grass Valley area.

The Democrats resolved to support all party nominees at the November election.

The next meeting is to be held within two weeks.

The central committeemen from Nevada City are Walter Hawkins, Frank Finnegan, John R. Bell. Curran Heath and Rose Hubbard. Grass Valleyans on the committee are William Cassettari, Oran Johnson, John Hodges and John Frank. Cecil Edmunds of Truckee was also elected at the primary as one of the central committeemen from the fifth district.

NELLIE ENNOR IS DECEASED

Miss Nellie Ennor, 78, member of a pioneer ranching family of Nevada County, died yesterday after an illness of several weeks.

The funeral services will be held at 2 o'clock Wednesday afternoon at the Hooper-Weaver Mortuary in Grass Valley with burial in the Rough and Ready Cemetery.

Miss Ennor was born and reared on the well known Ennor Ranch in Penn Valley. The homesite was established by her father, the late James Ennor, in 1852.

The deceased leaves three sisters, Miss Amelia Ennor, Adele Ennor and Mrs. Bertie Martell and a brother, Jess Ennor, in addition to nieces and nephews.

James Tyrrell Named As Member Of Republican State Central Committee

Assemblyman Scoop Thurman of Colfax has appointed James C. Tyrrell of Grass Valley a member of the Republican State Central Committee. The assemblyman's other two appointments are Mrs. Geo. Savage of Independence and Mrs. Ethel Wickes of Placerville.

The state committees of the various political parties will meet in Sacramento on Fiday, September 18.

Caught in the Riffles

Two men were examining the magnesite on exhibition in The Nugget window.

"What's that stuff used for?" asked one.

"That's the stuff they use to make milk of magnesia for children," the other knowingly replied.

Chief of Police Max Solaro today starts his two weeks vacation from his policing duties. He will spend his vacation driving truck for the Tahoe National Forest, which is short of help.

Sam Hooper today returned to work as city water collector after enjoying a two weeks vacation. . . . Madeline and Betty Bettles secured employment in Sacramento and can now occasionally visit Nevada City without too much trouble. The Bettles moved from here to Los Angeles. Mrs. Bettles is now in Ookland. The family has not yet received word from Gordon Bettles, husband and father, who was captured by the Japs in the Philippine Islands. . . . Bob Paine and Dan Ungaro, who next Monday leave for the United States Army Officer's Training School, are making the best of the short time they have remaining in civilian life . . . Stanley Foreman, son of the Bert Foremans, is now able to walk about the Jones Memorial Hospital and is well on his way to complete recovery from the injuries suffered in the unfortunate fire truck wreck in Grass Valley last month. Billy Tobiassen is also recovering satisfactorily but still must spend many days in the hospital.

Rev. and Mrs. Cedric S. Porter took special interest in the picture Moontide which was billed at the Nevada Theatre last Wednesday and Thursday.

For one of the stars of the picture was "Officer of Tulgey Wood" which to the Porters is like a member of the family.

"Officer of Tulgey Wood" is a dog owned by Mrs. Porter's brother, Howard L. Hanes of Pasadena ,who is now in the armed forces, stationed at Camp Davis, North Carolina.

ELBREDGE SKEAHAN OFF TO WASHINGTON

Elbredge Skeahan, assistant postmaster here for the past two years, left early Saturday for Washington, D. C., where he will start training for a job as United States postoffice inspector.

The appointment of Skeahan to the new position is a decided promotion and Nevada City friends were happy to learn of the honor.

Skeahan will be given his assignment following the completion of several months training. Mrs. Skeahan will remain in Nevada City. She is employed as a clerk in the Selective Service headquarters here.

William Andrews, assistant postmaster of the Grass Valley post office, received a similar appointment and left for Washington at the same time as Skeahan.

Supervisor Ellis Reports Tahoe National Forest Has Not Had Major Fire

Forest Supervisor Guerdon Ellis today expressed his appreciation to the users of the Tahoe National Forest for the enviable fire record attained so far this year. Ellis points out that the Tahoe has not had a major fire this year and with the help of veteran sportsmen it is felt that the hunting season can be passed without incident. Ellis attributes this excellent record to the wholehearted cooperation of forest users, particularly local residents who have taken a very active part in the prevention of fire. It is particularly gratifying, said Ellis, to hear public-spirited citizens contact prospective forest users and advise caution with fire, particularly in the use of cigarettes. Ellis further stated that it was his opinion that if all sportsmen would take it upon themselves to voluntarily leave tobacco in camp while hunting, one of the greatest fire hazards would be eliminated.

THE "WHY" OF SCRAP

As furnaces are roaring to produce more steel for tanks, planes and guns, Uncle Sam's scrap pile is rapidly diminishing. The need for scrap and more scrap is becoming daily more critical.

It might be asked why in this land of plenty, with its huge deposits of iron ore, there is such an urgent and unprecedented demand for scrap iron and steel. There are good reasons. Steel is made of scrap and pig iron—metal melted from iron ore. Even in normal times scrap supplies about one half the raw material for steel production—and the reason behind it is that scrap contains much valuable alloy material which is recovered in steel production. With the shortage in critical materials—such as nickel, tungsten, chromium and other metals needed for the many types of alloy for the production of weapons—such recovery becomes all the more imperative. Too, while there is abundant ore available for the production of pig iron, much labor and extensive transportation facilities are needed to mine purify and transport the ore to the steel mills.

These are only a few reasons why scrap collection of the ferrous metals and other materials is essential to war production. The salvaging of scrap is a job for every man, women and child in America. We must dig, and dig deep, in the "mine above the ground," the rich reserve of junk, which wasteful America has accumulated through the years. Those mining operations may well determine whether—and how soon—we will win the war!

WHAT ARE WE FIGHTING FOR?

"Slavery for the free peoples of the world is the ersatz the Nazis and their confederates propose to substitute for the democratic way of life" declared Professor Frank M. Russell of the University of California Political Science Department, in an address entitled, "What Are We Fighting For?'

"It is unthinkable that the free peoples of the world, and all those now in bondage who think that freedom matters, should not fight to the death for the preservation of the gains made in social living by the democracies." Russell maintained, reminding, however, that "when this war is won—completely won—it will not be enough to turn wearily back and attempt to restore the status quo of August, 1939."

"This world catclysm is resulting in such convulsions and economic and social dislocations that humpty-dumpty can never be put together again as he was, which is just as well." stated Russell, pointing out that the prewar world of 1939 did not provide "those securities for the masses which must be furnished when this war is over if a durable peace is to be realized."

"What then are we fighting for?" concluded Russell "We are fighting to thwart the most dastardly attack ever attempted against civilization. But more than that, we are fighting for the opportunity to continue to make that civilization better, and the world a fairer place in which to live."

JUST WONDERN'

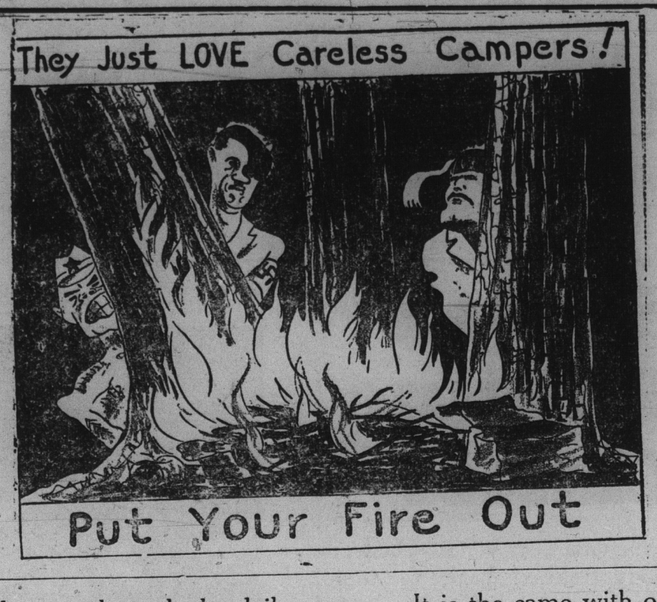
I wonder at ear splitting sounds
By radio emitted,
I'd tell just what I think of them
If time and law permitted.

I wonder at the strident incidental music which confuses and confounds so many otherwise pleasing radio programs. One turns the dial in fear and trembling, to be greeted by a blast of sound that almost lifts him from his cushioned rocking chair. The M. C. announces a subject which sounds interesting, but as his voice dies away, uncontrolled musical instruments blare again and the play goes on. There may be dialogue one wishes to hear, but alas, it is forced to compete with the rumble of over aged automobiles or the roar of flying fortresses in formation. The incidental music craches in at stated intervals to fill the room with cacaphony and drive the listener to the verge of profanity.

One sighs with relief when the inhuman turmoil, human and mechanical is at an end and wonders if the program was at all worth while. It probably wasn't, for didn't the producer do everything in his power to render it unintelligible?

I wonder if the exponents of vitamines are in danger of talking themselves out of their jobs. After all, why advertise these strange, unseeable elements when every one is using them—in fact can't avoid using them?

We control our caloric intake, but there is no closed season for vitamines. Everything we eat and drink is surcharged with them. There is at least one vitamine in every flake of our favorite cereal, dozens of them lurk in every slice of bread,



and so on through the daily menu. It is the same with our beverages; milk for instance, does not come to us as it was when bossy gave it to a waiting world. Somewhere along the route from cow shed to table, a person or persons unknown, dropped or pumped in several colonies of vitamines with all their various complexes. The end is not yet, for vitamines have been done into tablets, capsules, etc., and are now enclosed in glass containers and carried in hand bags and vest pockets ready for use at an instant's notice.

I wonder if there is danger of consuming too many vitamines. If a young person should take an over dose, would he became a jitter bug? And shall we soon see elderly men who have taken vitamines not wisely but too well, dashing out like father Wililam and standing upon their patriarchial heads?

Uncle Silas says: "Togo had to go and Tojo has taken his place, but the difference between those two insufferable monkeys is like that between tweedle de and tweedl dum." —A. Merriam Conner.

THINKING OUT LOUD

(Continued from Page One)

met only by taxes and borrowing, it states the major objectives of war taxation to be, first, obtaining the maximum revenues to reduce the amount of borrowing, and second, avoiding inflation.

Each of the present sources of income is analyzed from the viewpoint of its revenue possibilities and its effect on inflation. The corporation tax of $10-billion, under present proposals, is the approximate limit that can be expected from this source. While it is essential to the raising of revenue, it has almost no influence on consumer spending and has therefore no effect on inflation. Other sources of taxation are the personal income and sales taxes. Either direct or indirect taxation must be relied upon to meet the additional tax requirements. Taxes which draw off excess income or increased purchasing power due to the pouring out of billions of dollars in the war effort, largely in the form of wages and salaries, are an important factor in curbing inflation.

Huge borrowings involve real risks, the Facts and Fiugres booklet points out, but the method used can reduce these risks. If the government borrows directly from the people, as, for instance, through the sale of war savings bonds, then the danger of inflation is lessened, since the current income of the people is reduced. The type of borrowing which uses the savings of the people, or of life insurance companies and savings institutions, is also not inflationary. To the extent that the government borrows directly from the commercial banks, it makes more money available for private sending and thus increases the danger of inflation.

Price ceilings alone are powerless to stop inflation. A coordinated program is necessary which would include controls over farm commodity prices and over wages, so that expanded income and the increased demand for goods and services can be restrained. Inflation can be halted only by a combination of rationing, price controls, wage stabilization, control of prices for farm commodities, forced savings and widespread taxes on income.

HERE'S PATRIOTISM

News in Rhyme Over KJBS Daily at 12:30 P. M.
Written by Harley M. Leete, Jr.

An all-out war production line,
Which works both fast and hard,
Is striving with a spirit fine,
In San Quentin's prison yard.

The pay is low, the work is tough,
But it's done by volunteers.
Their records may be plenty rough,
But their good work merits cheers.

Submarine nets are strongly made,
By hand, of hardest steel.
And well those workers have displayed,
Their pride in commonweal.

They all have had a troubled past,
But are Yankees just the same.
They want democracy to last,
So they make hard work a game.

Just because the bars close out,
The freedom that's outside.
Of this thing have no single doubt—
They have their national pride.

Besides sub nets, the prisoners' days,
Are filled with other work.
They made five thousand Navy trays,
And not a man did shirk.

It's predicted that the Navy's E,
May o'er San Quentin fly.
We hope that some day that may be,
For those men who work and try.

Warden Duffy says morale is great:
They've never worked so long,
Or at such a hard and healthy rate—
Their spirit's high and strong.

It's heartening, we think to find,
Real patriotism there;
And know that men in jail confined,
Still by their country swear.

Ted Nichols, Colfax barber who formerly worked here, has been inducted into the Army and will leave for training from Auburn on Thursday. Nichols, 40, served in Siberia during the first war and is a member of the Banner Mountain Post, Veterans of Foreign Wars, of this city.

HUNDREDS EXPECTED FOR OPENING OF DEER SEASON

Hundreds of California hunters are preparing to visit the Tahoe National Forest if the recent increased demand for campfire permits can be used for a measuring stick. Forest Supervisor Guerdon Ellis pointed out that General DeWitt's recent order lifting the ban on open campfires in the Tahoe area does not in any way modfy the strict forest service regulations governing the use of fires in the forest. Ellis advises hunters to use improved campground where regulation stoves and tables are available. Where this is not possible it is imperative that all inflammable material be removed from a space 10 feet in diameter before lighting the fire. Ellis further states that the most important phase of camping is the extinguishing of the campfire. Every spark should be put out with water and the extinguished coals covered with mineral soil. There are many cases on record, according to Ellis, where forest users have thrown the remains of the breakfast coffee or a small pan of water on a fire only to have the smouldering fire rekindle and result in a disastrous forest fire.

LEGAL NOTICE

LEGAL NOTICE

United States Department of the Interior U. S. Land Office, Sacramento, California. Dated: August 4, 1942. M. A. 030718.

Notice is hereby given that Metal Products Holding Corporation, whose address is Galen Building, San Francisco, California, has made application for patent to the Teluride, White Quartz and Grizley No 4. Lodes, M. S. No. 6168 in the Meadow Lake Mining District, Nevada County, California, described as follows:

TELURIDE LODE: Beginning at Corner No. 1, which is located on a granite ledge 14x50 feet, 12 ft. above ground, marked "X-T-1-6168," from which the quarter section corner of Sections 4 and 9, T. 17 N., R. 13 E., M. D. M., bears S. 58° 39' 50" E. 844.67 ft. distant; thence S. 71° W. (Var. 18° 37' E.) 602.08 ft. to Corner No. 2, a granite stone 7x11x20 inches, set 8 in. in the ground and in a mound of stones, marked "T-2-6168"; thence N. 26° 43' W. (Var. 19° E.) 1490.64 feet to Corner No. 3, a granite stone 14x18x24 inches, set 10 in. in the ground in a mound of stones, marked "T-3-BL-1-6168"; thence N. 71° E. (Var. 18° 48' E.) 598.76 feet to Corner No. 4, which is identical with Corner No. 1 of the Grisley No. 2 Lode, this Survey 6168 herein previously described; thence S. 26° 50' 40" E. (Var. 18° 46' E.) 1491.1 feet to Corner No. 1, the place of beginning.

Adjoining patented claim, as shown by the plat of survey, is the Kentucky Quartz Mine, Lot 38, survey number unknown, owner Frank Pauson & Sons; adjoining claims of this Survey 6168 are Edison, White Quartz and Big Lode.

GRIZLEY NO. 4 LODE: Beginning at Corner No. 1 of the Grizley No. 4 Lode, a granite rock 9.5x11x24 inches, set 7 in. in the ground and in a mound of stone, marked "G4-1-6168," from which the quarter section corner of Sections 4 and 9, T. 17 N., R. 13 E., M. D. M. bears S. 58° 07' W. 1225,15 feet distant; thence N. 31° 57' E. (Var. 18° 05' E.) 600 feet to Corner No. 2, a granite ledge 2x4 feet, 1 ft. above ground, marked "X-G4-2-6168"; thence N. 55° 23' W. (Var. 18° 03' E.) 1481.58 feet to Corner No. 3, which is identical with Corner No. 6 of the Grizley No 1 Lode of this Survey 6168 herein previously described; thence S. 31° 57' W. (Var. 18° E.) 600 feet to Corner No. 4, a granite rock 4x10x24 inches set 10 in. in the ground in a mound of stone, marked "G4-4-6168"; thence S. 55° 23' E. (Var. 17° 55' E.) 1481.58 feet to Corner No. 1, the place of beginning.

Adjoining and conflicting claims, as shown by the plat of survey, are the Eagle No. 2, Grizley No. 1, and White Quartz Lodes of this Survey No. 6168.

WHITE QUARTZ LODE: Beginning at Corner No. 1 of the White Quartz Lode, which is identical with the point for Corner No. 6 of patented Lot No. 38, the Kentucky Lode, on a granite ledge 8x75 feet, 16 ft. above ground, marked "X-WQ-1-6168-KQM-6-L-38 from which the quarter section corner of Sections 4 and 9, T. 17 N., R. 13 E., M. D. M. bears S. 5° 49' E. 925.46 feet distant; thence N. 30° 45' E. (Var. 18° 42' E.) 600 ft. to Corner No. 2, a granite rock 4x14x26 inches set 10 in. in the ground marked "WQ-2-6168"; thence N. 59° 28' 50" W. (Var. 17° 20' E.) 1494.74 feet to Corner No. 3, a granite rock 10x20 ft. 10 feet above ground marked "X-WQ-G1-2-6168"; thence S. 30° 45' W. (Var. 18° 11' E.) 600 feet to Corner No. 4, which is identical with Corner No. 5 of patented Lot 38, the Kentucky Lode, a granite stone 5x15x24 inches set 10 in. in the ground and in a mound of stone, marked "WQ-4-6168-KQM-5-Lot 38"; thence S. 59° 28' 50" E. 1494.74 feet to Corner No. 1, the place of beginning.

Adjoining claims, as shown by the plat of survey, are Kentucky Lode, Lot 38. and lot 40, U. S. Grant No. 1. Adjoining and conflicting claims as shown by the plat of survey, are Pullman Quartz Mine, Lot No. 37, claimant unknown, and Grizley No. 4, Grizley No. 1, Grizley No. 2 and Teluride this Survey 6168. All conflict with Lot 38, Kentucky Lode, is expressly excluded from this application.

Location notices are recorded in Book 33 of Mining Claims, pages 273, 274, 276 et seq of Official Records, Nevada County, California.

NOTICE

Nevada City, California, July 9, 1942

TO CHRIS N. LAUSTEN, his heirs and to all whom it may concern:

NOTICE IS HEREBY GIVEN: That the undersigned for over five years made and performed $100 worth of labor and improvements upon and for the benefit, development and improvement of the Golden Edna Placer Mining Claim. The location of this property is described in the office of the Recorder of the County of Nevada, State of California, in said County's records of Placer Claims in Volume 30 at page 266 thereof.

That said labor and improvements consisted of continuation of the tunnel 18 feet through solid rock; 100 feet open cut work and cleaning out old tunnel, during the years 1930-31-37-38-39-40, for the purpose of developing the said claims or group.

You are hereby further notified that if within ninety days after this notice by publication you or any other interested parties fail to contribute, your interest in said claim will be forfeited to become the property of the subscriber, your co-worker, under Section 2324 of the revised statutes of the United States and the amendments thereto. Signed,

ED. M. MARTINE,
EDNA A. MARTINE.

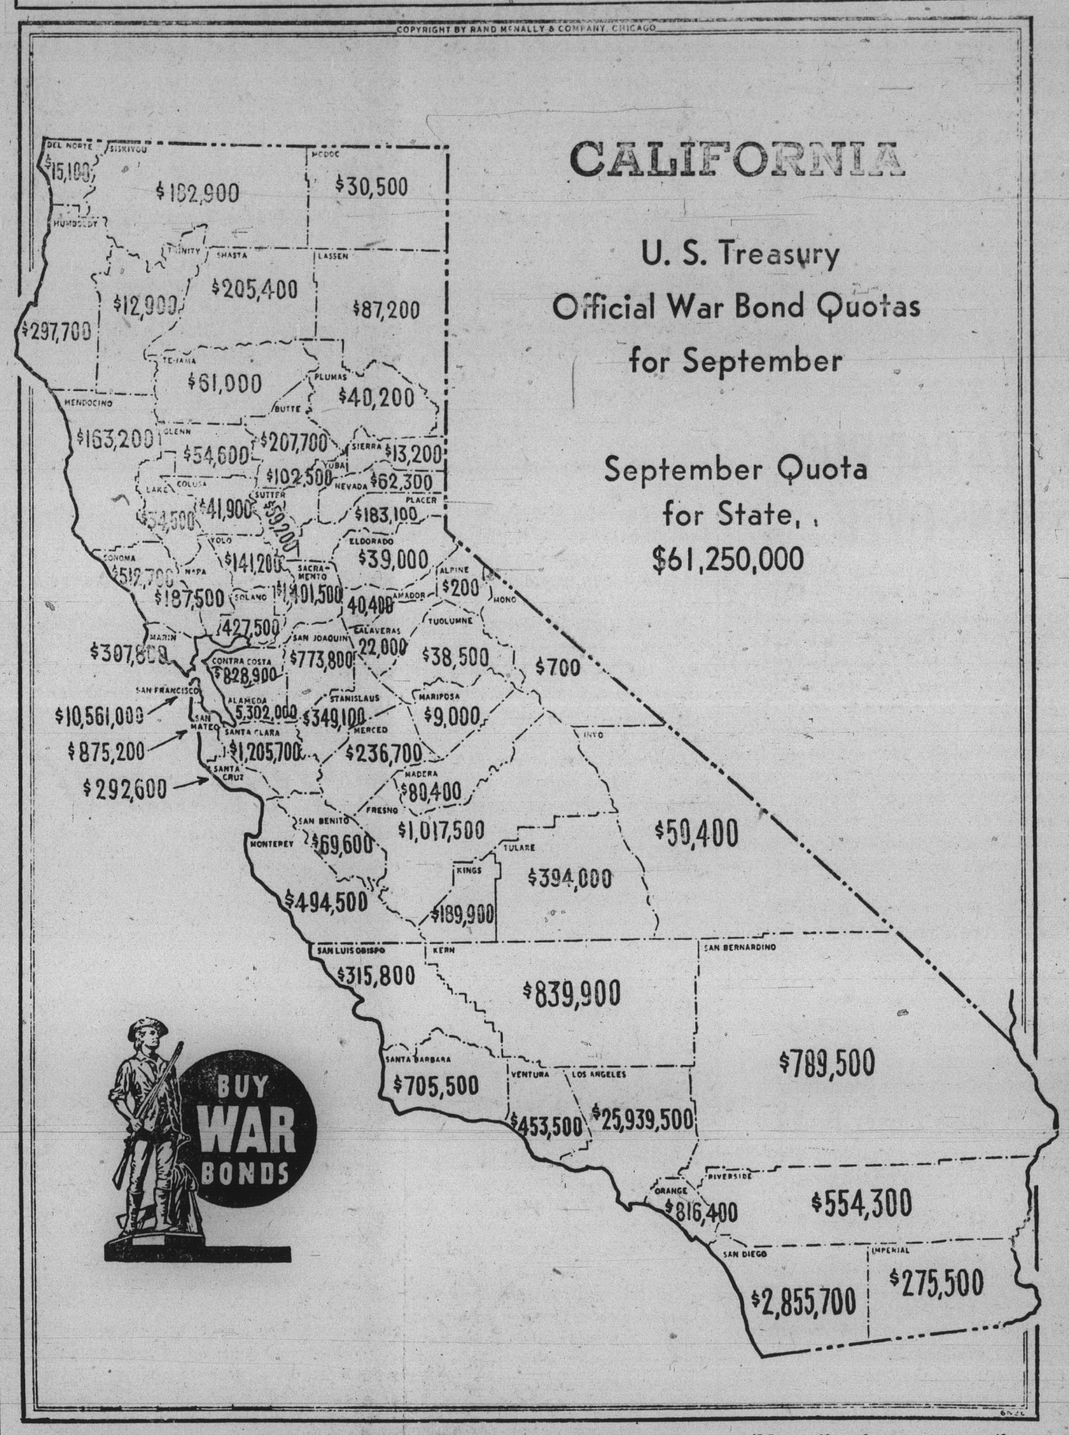
★ ★ ★ OFFICIAL U. S. TREASURY ★ ★ ★
WAR BOND QUOTAS FOR SEPTEMBER



Washington, D. C., Sept. 8.—September War Bond Quotas for the 3,070 counties in the nation were announced today by Henry Morgenthau, Jr., Secretary of the Treasury, to make up the national September total of $775,000,000.

The September quota for the State of California is $61,250,000.

In fixing the county quotas, the Treasury has continued its announced policy of setting the monthly quotas in line with the seasonal distribution of income with the billion-dollar monthly national average as the annual goal.

The national quota for May, when the nation went on the billion-a-month annual basis, was $600,000,000. For June the quota was $800,000,000 and for July it jumped to $1,000,000,000. The August quota was $815,000,000, so to maintain the billion-dollar annual monthly average, the quotas for the Fall and Winter months must necessarily be stepped up considerably to reach the objective set.

LEGAL NOTICES

NOTICE

Tuesday, September 1, 1942.

The regular monthly meeting of the Board of Directors of BLACK ROCK PLACER MINING DISTRICT was held at the office of the President, W. H. Taylor, 942 Russ Building, San Francisco, California, at 11:00 A. M., Tuesday, September 1st, 1942.

Present: W. H. Taylor, Albert Lachman, George Munger.

Absent: Theo. Larsen, C. E. Clark.

The following resolutions were introduced by Albert Lachman, seconded by George Munger, and unanimously adopted:

RESOLVED, That in conformity with Section 50, Placer Mining District Act, the Black Rock Placer Mining District is established as one election precinct, the boundaries thereof to be those of the Black Rock Mining District as described in the Resolution of the Board of Supervisors, Nevada County, dated May 9, 1934;

RESOLVED, That the house of Claude Clark, Nevada County, is hereby designated as the polling place of the election precinct of Black Rock Placer Mining District;

RESOLVED, That W. H. Taylor be appointed Inspector, and Claude Clark and Jane Taylor, Judges, for this election;

RESOLVED, That the election shall be held on Tuesday, November 3rd, that the polls shall be open from 8:00 A. M. to 11:00 A. M. for the purpose of electing two Directors for the term of four years;

RESOLVED, That the voting shall be secret, written ballot, said ballots to be the following form:

BALLOT

The regular general election ballot to be used, showing names of directors to be voted for and providing blank spaces for names to be written in;

RESOLVED, That the Nevada City Nugget is a newspaper of general circulation, published and circulated in Nevada County. The Secretary of the Board shall cause to be published therein three notices of this election.

There being no further business to come before the meeting, on motion of Director Lachman, seconded by Director Munger, the same was duly adjourned.

GEORGE MUNGER,
Secretary.

TRAVELOGUE

BUFFALO, MINN.—
THE SMALLEST CIRCUS.

If you're handy with a pocket-knife, know considerable about electricity, and have some 4 or 5000 hours that you can spend on a hobby, I can point you out a sure-fire road to fame and fortune. This is no idle pipe dream. John Groebner of this city has proven it can be done. He has whittled his way into a life of ease and, incidentally, into the hearts of thousands of kids and not so few grownups.

A few years ago, Mr, Groebner, a barber by trade, conceived the bright idea that if Ringland Bros. could draw millions of people to see a real circus, with its wild animals from the jungles of Africa, then he could draw thousands to see an imitation of the real thing, with the animals and other attractions made of wood—providing, of course, that the animals, clowns and acrobats performed in a realistic manner.

With that thought as a basis, Mr. Groebner went to work. Days were spent at his barbering profession. Nights were spent with pack-knives and chisels. Over 4000 hours were spent fashioning the tin bits of wood and connecting them with wires and pulleys that they would operate in unison. Some 3 months ago the work was finished and the completed circus exhibited to the public for the first time. Needless to say, it was a howling success.

In building his circus, Mr. Groebner kept close to proven standards. Around the 3 rings that feature the center attractions, moves a regular old-fashioned parade with its regular brightly colored wagons, clowns and performers. In the center ring, trained elephants go through their routine, turning and bowing in majestic dignity. In one end ring, trained horses perform to the direction of the ring-master who cracks his whip in the best proven manner. In the opposite end ring other animals go through their paces with trained seals spinning balls on their noses and snakes twisting and turning in a realistic way. Acrobat and trapeze artists perform between the rings.

Back of the show is the band. This attraction is perhaps the most outstanding of all. Each member of the band actually performs his assigned part—the band master waves his baton—the slide trombones actually slide—the drums crash and the cymbays roar. All the while real circus music is being played. The music is furnished by the famous Ringling Bros. circus band via phonograph record.

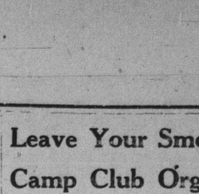
The entire show is mounted on a platform under which is an assortment of electric motors that provide the motive power. The platform is housed in a specially built trailer, complete with big-top, back-drops and other paraphernalia. It's a big-time attraction in ever sense of the word.

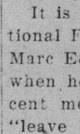
Someday this little show may come to your home town. If it does, be sure and take the kids down to see it. Then go home and sharpen up your pocket-knife and see what you can do.

Never belittle — a guy that can whittle.

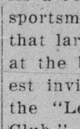
Leave Your Smokes In Camp Club Organized

It is the opinion of the Tahoe National Forest officers that Fire Chief Marc Edmonds hit upon a good idea when he jokingly suggested at a recent meeting the organization of a "leave your smokes in camp club." As a result of Edmunds' remark sportsmen and others have suggested that large temporary signs be placed at the boundaries of the Tahoe forest inviting visiting hunters to join the "Leave Your Smokes in Camp Club." Accordng to Edmonds, this "club" will be sponsored by sportsmen and will be for sportsmen. "If disastrous smoker fires can be eliminated by this effort, California hunters can be assured of the continued cooperation from the military in keeping the remaining hunting areas open," stated the forest official.





It's common sense to be thrifty. If you save you are thrifty. War Bonds help you to save and help to save America. Buy your ten percent every pay day.



Our fighting men are doing their share. Here at home the least we can do is put 10% of our income in War Bonds for our share in America.

ADVERTISING EXPENSE DEDUCTIBLE FOR INCOME TAX PURPOSES

NEW YORK, Sept. 14.—(UP)—Advertising expenditures necessitated by contingencies arising from the war program as well as normal advertising expenses are deductible for income tax purposes, the Association of National Advertisers disclosed, with the approval of the office of the commissioner of internal revenue.

The explanation of the attitude of the treasury department and the bureau of internal revenue was based on conferences between officials of the association and treasury. It appeared in the form of a letter from Paul B. West, president of the association, to the commissioner of internal revenue.

The treasury department and the bureau of internal revenue fully appreciate the important part advertising plays on our national economy and there is no intention to restrict reasonable and normal advertising by disallowing it as deductible expense, the letter said.

Two important factors, from the advertiser's viewpoint, are recognized by the bureau. First, that advertising costs have risen and second, that in many cases gasoline rationing and tire restrictions have cut down salesmen's calls on dealers thus throwing an added burden on advertising since expenditures for direct mail and dealer house organs must be boosted.

In this connection the bureau suggests that advertisers keep their advertising cost records as complete as possible.

West said that in general the bureau is willing to approve normal expenditures for the new types of advertising which have sprung up as a result of the war. These include:

1. Salvage campaigns, where there is reasonable expectation that the corporation will be benefitted by an increase of substitutes. The bureau will take into consideration all normal factors incidental to launching a new product if they are reasonable in amount.

3. Added lines acquired by manufacturers to keep dealers in business. The bureau recognizes that manufacturers must merchandise these to the dealer and public through advertising.

4. Changes in buying habits. For example, beverages manufacturers attempting to educate the public to use large instead of small size bottles because of a shortage of plate for metal caps will be allowed deductions for reasonable advertising expenditures.

5. Advertising to speed war production through campaigns using various media in offices and plants will be recognized as a justifiable expense as long as it is reasonable.

6. New companies organized for the sole production of war material will be allowed deductions for reasonable advertising expenses to promote their names so that when they turn to peace time activities the public will recognize them.

LAVA CAP BUS TURNS OVER

One of the Lava Cap busses operated out of Grass Valley turned over Saturday night on the grade leading down to the Central Mine and 12 occupants of the bus were injured.

George Tyree and Herman Kuhn were the most seriously hurt. They are in the Jones Memorial Hospital in Grass Valley. The others injured, none seriously were Claude Ford, Otto Linke, Lyman Weeks, Fred Kohler, D. G. Pettit, Frank Prichard, Lawrence Heathcock, William Grubbs and John Cerberg and William Grubbs.

The reason for the accident was that a front spring broke and the bus got out of control. It plunged down the embankment and turned over. The bus was driven by John Odgers, a shift boss at the Central.

Funeral Services Pending For William Henry Brakey

Funeral services will be held under the direction of the Holmes Funeral Home here for William Henry Brakey, 77, local carpenter, who died Saturday afternoon at the county hospital after an illness of six months.

Brakey had been a resident of this city for the past six years. He was a native of Illinois.

A son, George Brakey of Richmond, survives.

MINERS REACH TOP IN VALLEY LEAGUE STANDING

The Grass Valley Miners took over first place in the Sacramento Valley League standings yesterday afternoon, winning over the Chico Colts by a 5 to 3 score.

Wally Turpin pitched the victory for the Miners, gaining revenge for his release by the Colts earlier in the season. Turpin allowed eight hits.

Grass Valley pounced upon Carranzo, pitcher signed especially for yesterday's game by the Colts, for two runs in the first inning, one in the third and two more in the seventh. The latter two runs proved to be the winning tallies for Chico scored two runs in the sixth and one in the eighth.

In the first frame Swthe singled and Bowa was safe on an error. Cooper then sacrificed and Fusaro sent both runners home with a single to left field.

A wild pitch by Carrazo accounted for Grass Valley's third run, which came in the third inning. Cooper tallied the run after he reached first safely on a bunt and was then advanced to third base.

The final two runs came in the seventh when Smythe tripled, Bowa singled and was advanced to second on Cooper's fly and then came home when Hoskins singled.

The score:	R.	H.	E.
Grass Valley	5	7	3
Chico	3	8	3

Batteries: Turpin and Stassi; Carrazo, Miller and Mangin.

NOTICE OF APPEAL OF HYMAN VERDICT FILED IN COURT HERE

Ray Hyman, Grass Valley business man, has filed notice of appeal in the superior court here of the verdict of Justice of the Peace Charles Morehouse in Grass Valley finding Hyman guilty of a charge of petty theft preferred against him by Rose Nolan.

Hyman was convicted of stealing a stove from Mrs. Nolan when he moved from a residence he had rented from her. Justice Morehouse fined him $50.

The appeal is based on three reasons:

1. An error in the decision of the court, given on the questions of law arising during the course of the trial.

2 The verdict was contrary to the evidence.

3 The verdict was contrary to law.

William Cassettari is acting as Hyman's attorney.

MARRIAGE DECLARATION

PRATT-WATTS—In Nevada City, September 12, 1942, by Kenneth Gerald Pratt, 25, of Sacramento and Phyllis Kate Watts, 22, of Grass Valley.

The bride was asked her opinion of married life.

"Oh, there's not much difference," she said, "I used to sit up half the night waiting for him to go home and now I sit up half the night waiting for him to come home."

GOLD FLAT MAN PLEADS GUILTY TO MANSLAUGHTER

Charles McFarland, 73, indicted by the Nevada County Grand Jury for murder in the fatal shooting of his son in law, Robert R. McCumber, 52, pleaded guilty to a reduced charge of manslaughter before Superior Judge George L. Jones here Friday afternoon.

McFarland was to have gone on trial before a jury here today. The aged man asked for probation and Probation Officer A. W. McGagin will give his report tomorrow.

District Attorney Vernon Stoll, in consenting to the reducing of the charge, state the circumstances surrounding the case probably would not have justified a verdict of guilty of murder.

McCumber died one week after he was shot in the chest with a .22 caliber rifle bullet. Sheriff Carl J. Tobiassen said his investigation disclosed the shot was fired by McFarland following an argument between the two men and a subsequent beating of the elder man by McCumber.

The shooting took place at the McCumber home in Gold Flat.

Personal

Congressman and Mrs. H. L. Englebright left for Washington, D. C., Sunday. They have spent about a month in Nevada City. While here he looked over many projects. Among these are essential war mineral mines, Shasta dam and debris dams.

Among those from Nevada City attending the wedding of Miss Rosebay Richards in Auburn on Saturday were, Mr. and Mrs. E. M. Richards, Mr. and Mrs. C. A. Libbey and daughters, Tom Richards, Mrs. John Larue, Mr. and Mrs. A. M. Hoge, Mr. and Mrs. Ed C. Uren, Mr. and Mrs. Richard Goyne, Mr. and Mrs. Clayton Bennett, Mrs. Mary Warnecke, Miss Savory Ford.

Mr. and Mrs. H. H. Chatfield of Pike City visited with relatives in Nevada City Thursday.

Mr. and Mrs. Alvin Walsh and children, who have resided in the Willow Valley district the past six years, have moved to Oakland to live. He is engaged in defense work.

Mr. and Mrs. Charles Myers of the Banner road section, returned Saturday from a few days vacation. They were accompanied by their granddaughter, Miss Betty Myers of Napa.

Miss Betty Myers of Napa has come to Nevada City to enter St. Mary's college in Grass Valley. The school opens Monday.

C. O. Brown of the Johnston Florists who is employed in war work at Richmond was confined to his home several days with a severe cold.

Jim Odegaard, who is in the air service near Merced and Miss Margaret Odegaard of San Francisco, spent the past week end in Nevada City.

Dick Haddy of Carson City, Nevada motored to Nevada City on Saturday and returned with his little daughter, Bonnie, who has spent about a month with her grandparents.

Mr. and Mrs. E. R. McMath and Mr. and Mrs. Ed Wilde of San Francisco enjoyed the two day war benefit rodeo in Reno last week.

Mr. and Mrs. Walter St. John of Boulder Street are preparing to move to Berkeley to reside.

Mr. and Mrs. Donald McKay of Jackson spent Friday in Nevada City. They called on Mrs. Ida Guenther during the day. Mrs. McKay is the former Genevieve Dolan, niece of the late J. F. Dolan and has visited here many times.

Mr. and Mrs. Charles Myers, of the Banner Road district, have left for the Klamath River country on a fishing trip. Salmon are running at the mouth of the Klamath River.

Victor Buck and Mr. and Mrs. Bert Davidson came down from Orleans Flat Saturday. Mr. Buck brought in samples of magnesite or magnesia. This metal is lighter than aluminum and stronger.

Mrs. Fred Sikes returned recently from a motor trip to her old home in Bartlesville, Okla. Upon her return she was accompanied by her daughter Miss Jeanette Berry. Miss Berry will spend a time here visiting.

NO BLAME FIXED IN FIRE CREW MEMBER'S DEATH

A coroner's jury fixed no blame in the death of Lawrence Gallez, 21, State Division of Forestry fire crew member who was killed August 19th when a fire truck turned over on Mill Street in Grass Valley. In addition to fatal injuries to Gallez, six were injured in the accident.

The coroner's jury verdict was that Gallez came to his death on August 19th from a fractured pelvis and fractured skull when a Division of Forestry truck overturned.

The inquest was conducted by Coroner A. M. Holmes. Al Newall was foreman of the jury.

The jury also acted in the death of Richard Martin, 44, of Grass Valley, finding Martin came to his death by a self inflicted gunshot wound in the head.

ENLISTS IN NAVY

Jack Melvin Clark of Grass Valley formerly of Nevada City, has enlisted in the United States Navy.

Al Ungaro Visits Here—

Al Ungaro, recently inducted into the armed forces, visited with his mother and brother here two days last week before returning to his station.

Men are dying for the Four Freedoms. The least we can do here at home is to buy War Bonds—10% for War Bonds, every pay day.

COME IN and ENJOY the Dim-out!

There is no dim-out of spirit in California homes today. Streets may be darkened, lights screened or shielded—but doorbells jingle and friends and neighbors meet in wholesome, homey recreation.

Let's drop in like an invisible visitor and see what is going on in a neighborhood somewhere in California.

Mrs. Jones is having a cookie bake. It's her turn to have the neighbors in.

At the Smiths' the neighbors are practicing first aid. Mr. Smith, as host, is tied to the piano in a traction splint.

Dr. Brown just reviewed a book on France Today. The discussion is hotter than the coffee being served.

There is an old-fashioned knitting bee at Grandma Potter's. The men are in the kitchen fixing sandwiches.

It is a fine thing—this recreation in the home. Friendships are knitting closer. Nervous tension relaxes. Minds are more alert for the work of tomorrow. It will be work in quickened tempo that will hasten VICTORY.

Is your home ready and looking its best with good light? Replace burned-out or blackened bulbs now. Add a lamp beside a chair or davenport where it is needed.

Cheerful light and wholesome recreation are vital today.
